EdTech Demonstrator Phase 2 Schools and Colleges Programme

2021 - 2022

Demonstrator Programme moves into the second year with the focus for this round of support being on the following:

Recovery

Demonstrating the ways in which technology can bolster pupil/student progress and outcomes and support catch up and recovery activities

Teacher workload

Demonstrating the ways in which technology can remove unnecessary workload burdens, support more flexible teaching practices

Improvement plans

Ensuring that the adoption of technology has a clear plan and supports the wider aims of the school/college

Resource management

Ensuring that the adoption of technology provides the best value for money for their existing resources

An accessible and inclusive curriculum

Ensuring that the adoption of technology includes a strong focus on improving access for pupils with SEND and exclusions, and removing barriers to the effective use of assistive technology

Schools can select from 3 levels of support:

- 1) 6 hours support run over 1 term - light touch
- 2) 15 hours of support run over 12 months (or until programme end March 2022) - medium touch
- 3) 30 hours of support run over 12 months (or until programme end March 2022) - long term
